COLONIST JOB OFFICE.

Transient Advertisements must be paid for in advance TO AGENTS. Settlements of accounts will be required monthly, or besupply or papers will be discontinued. The daily and weekly issues will be furnished at the lowest cash rates and no exception will in future be made to this rule. WE were startled out of our propriety yesterday on hearing of a rare usurpation of power by the Legislative Council, who have presumed to interfere with the Municipal Council in matters quite foreign to their position. We never for a moment supposed that the Legislative Council would attempt any such encroachment upon the rights of our citizens or our civic functionaries, but such would appear to be the intention in the amendment introduced by Mr Trutch to the Municipal Amendment Ordinance. It would seem to be the desire of the Government to cripple the Corporation by every means in its power. After a lengthy period of incubation an Act of Incorporation is hatched so notoriously defective that the City Council may be said to have been hopping on one leg ever since. The Municipal By-law Act, which was thrown out a few days ago, was intended to straighten the ricketty measure we have alluded to, but contained in its construction so many incongruities that it would only have added to the Municipal difficulties. Another Ordinance, called the Municipal Amendment Act, has been under the consideration of our Legislative wiseacres, and after undergoing an im-mense amount of lopping and amendment has acquired an addition from the facile hands of Mr Trutch, who has robbed the citizens of the control of their own park by placing it outs de the city limits: presume every one is aware that the park has been under the cont ol of the City Council since Victoria boasted a Corpor ation; and our citizens are equally alive to the fact that their administration has been most creditable. Why, then, take away a part of the corporate functions? away a part of the corporate functions?

Are the citizens to be benefitted by the change? This we strongly doubt. Will our taxes be lightened by the transfer?

This we need hardly answer in the negative function of the control of t tive. Is the Legislative Council more capable of watching over the interests of the people than the Town Council? This What, then, can bave induced the Legislative Council to step ort of its way to meddle with matters that must necessarily bring them into conflict with the people? They surely cannot imagine themselves too popular; or, worse still, are they so confident in their power over the people that they rush into direct conflict in order to enjoy their triumph? It must be remembered that the Mayor and Town Council is a part of ourselves-fellow citizens chosen from our own ranks as a mark of our respect and esteem for them, and who are specially chosen to govern all matters pertaining to the civic administration of our city and its privileges. Any attack on that body, therefore, is a direct insult to the people, and must be met in such a spirit as to teach these official legislators that there is a power even greater than theirs. Had their wisdom been equal to their arrogance, they would have observed that the City Council enjoyed a freer atmosphere than the Council Chamber at the other side of the bay, and that the public business was more faithfully attended to in the former than in the latter establishment. We can without exaggeration boast of the best governed city on the Pacific; and we doubt whether anywhere in the world a similar amount of improvement has been achieved with the like quantum of means. All this, however, is beside the question of the administration of our Park which we in ist must and ought to be in the hands of the Mayor and Council of hands of the Mayor and Council of this city, and we sincerely recommend Mr. Trutch to undo as quickly as possible what he has done in relation to the exclusion of the Park from the city imits. It is quite true that our Legislative Councillors may have been misled on the subject by interested parties, or some idea emanating from the Chief Commissioner of Lands and Works may have tled him to think that were the Park in his own hands he could do more for the public hands he could do more for the public good than is now being done, We are prepared to admit this and much

more; but at the same time we re-commend an immediate transfer; or if

he doubts what we now advance as

the opinion of the people on the subthe opinion of the people on the Subject, let him attend at the Theatre on Monday night and hear the opinions of the ratepayers as they will then be expressed. We assure him he will go

away convinced of the wisdom of our

counsel. We would suggest that so

long as the attention of Legislative

Councillors is confined to matters con-

in order to arm the Municipal Council

with powers sufficient to carry out

lated to us by so many ties of associa-tion and friendship that we would as soon allow a stranger to interfere in our domestic affairs as we would allow our civic dignitaries to be robbed of a single privilege they ever enjoyed

SPECIAL TO THE DAILY BRITISH COLONIST

LAST . NIGHT'S DESPATCHES.

Europe.

Europe.

London, Feb. 25.—In the House of Commons this alternoon an inquiry was made whether legal investigation had been made before the purdon in the case of the Fenians recently liberated. Fortescue replied that the investigation made was quite sofficient to show that the cases were quite different from ordinary commutations of sentences.

In reply to a question, Lord Granville said that negotiations for a settlement between the Hudson Bay Company and the Dominion of Canada ars still pending. It was unadvisable to make a statement of the prospects of building a telegraph line through the territories of the company, to connect the Atlantic and Pac fic coast, until the complete adjustment is reached.

adjustment is reached.
Gladstone stated in reply to an inquiry from Torrens, that the Government had received no authentic advices of the rejection of the Alabama Convention by the United States, nor any information of the naturalization protocol. ization protocol.

John Bright, at a banquet, assured the Chamber of Commerce that he would urgo the necessity of ocean penny postage.

Eastern States.

Washington, Feb. 25.—It is said that General Grant, in conversation, has intimated that all the Southern military commanders removed by Johnson will be replaced. He says North Carclian and Alabama were the best reconstructed States of all. When the rest were safely restored ours would be the happiest country in the world. Grant said—

happiest country in the world. Grant said—
"I am not myself a representative of any political party, although the Republican party elected me."

A caucus of the Republican members of the forty-first Congress will be held on Tuesday evening, March 2nd, with the view of making nominations for officers of the House. A caucus of Democratic members will be held. A caucus of Democratic members will be held at the same time.

WASHINGTON, Feb. 25.—In the Senate, Chandler reported, with amendments, a bill to preserve the harbors of the United States against encroachments. It provides for the appointment of a mixed board of officers and civilians to have general supervision of the subject and make recommendations to Con-

subject and make recommendations to Congress.

In the House a bill passed which provides for the coinage of nickle five cent pieces. Boutwell submitted a report from the Contenence Committee on the Constitutional Amendment as follows: The right of any citizen of the United States to vote shall not be denied or abridged by the United States or any State on account of race, color or previous condition of servitude. The Conference report was adopted, 142 to 43. The amendment to the appropriation bill, giving female clerks in the Treasury Office the same pay as males when doing similar work, was pay as males when doing similar work, was adopted. The annual postal route bill pass-

California.

SAN FRANCISCO, Feb. 26.—From a telegram received by Collector Miller from the Secretary of the Treasury, it appears that all trade with the Islands of St. George and St. Paul is to be cut off until further orders, and that no merchandize or persons will be als lowed to be landed at such points. The indiscriminate slaughter of seals will doubtless receive a check by this new regu-

lation.
It is currently reported that the Pacific Mail Company intend to run but three steamers to Panama after March.
Floor—City brands, superfine in sacks, per 196 pounds, \$4.62½@4.75; extra, in sacks, \$5.62½@5.75.
Wheat—Choice shipping, \$1.70; common to good milling at \$1.50@1.70; and good to choice milling at \$1.70@1.75; Barley—Market is quiet at \$2.02.20, for feed, and \$2.20@2.30 for brewing.

Alaska.

The Postmaster at Sitta, an old Californian, writes under date of December 28th to the Nevada Transcript. He was there before the American flag was raised over that Territory, and therefore speaks from experience. We extract from his letter:

"What vegetation has been grown dem-

difficulty obtained as early as the 28th day of August from the May's planting. It is need loss to say that the enterprising ranchmen have closed out with disgust and embarked in the university execution of training day. the universal avocation of trading damaged

the universal avocation of trading damaged provisions to the Indians. This year the seazon has been unusually fine, long summer days blending almost into the morning.

During the Spring of the year Sirka is sobjected to southeast winds, heavy rains and deuse fogs. In the month of April vegetation takes a shoot, and the atmosphere sensibly changes from cold winds to gental breezes. At this season the herring commence to school in myriads, yes, acres upon acres are thrown or left by the tide on the beach to die and be washed away on its return. About the 15th of May the salmon begin to be seen but the season may be said not to begin until the middle of June. They

the people are inclined to give them a good deal of latitude; but when they trench on the functions of the people they will find themselves in the most uncomfortable position they ever occupied. What they had better do is to pass a good useful law in order to arm the Municipal Connecti are waiting to snare them for salting purposes.

This will undoubtedly be one of the vast resources of our Territory, and on this, the timber and the fur. we must make up our minds to depend sol-ly. The timber in immediate vicinity is not much, being low, stunted and scrubby. No large quantities have been found within any reasonable distance and suitable for shipping, in any one place. The most valuable wood as yet known to us is the yellow cedar. It is durable, and capable of retaining the most exquistheir bylaws with proper effect, and having done so, let them leave the Corporation to take care of themselves. No body of the citizens are watched by the people with more gradient care than our City Fathers, equal to that of box-wood. Here, however, it is searce."

City Council.

FRIDAY EVENING, Feb. 26.

The meeting was convened by his worship the Mayor to consider the propriety of calling a meeting to learn the sense of the public relative to the proposed withdrawal of Beacon Hill Park from the control of the Corpora-

Mr McKay, seconded by Mr Allatt, intro duced the following preamble and resolu-

tion:
Whereas, Beacon Hill Park was placed under the control of the Corporation of the City of Victoria by virtue of an Ordinance entitled 'The Victoria Municipal Ordinance, 1867,' to incorporate the said city;

entuided 'The Victoria Municipal Ordinance, 1867,' to incorporate the said city;
And whereas the Ligislative Council, without consulting the citizens of Victoria, attempted on Feb. 25, 1869, to withdraw the park from the control of the said Corporation;
And whereas it is the unanimous opinion

of the Council that the withdrawal of the

of the Council that the withdrawal of the said park from the control of the said Corporation would be a great public wrong;
And whereas this Council is unanimously of the opinion that steps should be taken to remonstrate against and prevent the withdrawal of the said park from the control of the said Incorporation;

Resolved,—That his Worship the Mayor be authorised to call a Public Meeting, to be held in the theatre on Monday evening next, the 1st March, at 8 o'clock, to acquaint the citizens with the attempted withdrawal of the said park, and to take such others.

the said park, and to take such other stope to prevent the same as the citizens may deter

the said park, and to take such others are prevent the same as the citizens may determine.

The Mayor stated that in proposing the resolution in the Council to withdraw the park from city control the Chief Commissioner of L nds and Works had stated that the Corporation was destroying the beauty of the park by blasting the rocks, and that they had given permission to a gentleman to erect a stable in the park grounds. The Corporation workmen were blasting rock in the same place that the Government workmen were blasting; and as to the story of the stable, it was utterly without foundation, no such permission had been giver.

Mr. Gibbs strongly supported the motion for a public meeting. The Corporation is a representative body, while two-thirds of the Council's not. The Corporation had proposed to make some improvements last apring at the Park, but were told that the Jockey Club (!) held supreme control. He trusted that such action would be taken as to confirm the city in the control of the Park.

Mr. Russel and Mr. Allsop deemed the action of the Council an intringement upon the public rights.

Mr. Gerow inid that if the Government

when which and the solution of the country and the property of the country of the

Gerow had said. He would go for the park through thick and thin.

The Mayor remembered when the Educational Bill was before the Legislative Courcil, Dr. Helmcken moved that the local board be the Mayor and Council, when me of the members exclaimed, "What! pace the Schools in the hands of a set of felows who can neither read or write?" If the

The resolution was carried unasimously and the meeting then adjourned.

THE BATES DRAMATIC COMPANY. - As We anticipated, this company arrived by the steamship Active. During their short stay at Victoria they were quite successful, and they return here with the most grateful remembrances of the generous treatment received at the hands of the Victorians. We are not able to state what arrangements they have made or intend to make in relation to re-opening the theatre here, though we hope to be able to make an early announcement in this behalf. We think the Portland public will give them a rousing greeting when they shall again appear at Oro Finc .- Portland Oregonian, 24th.

ISLAND RAISED HOGS-Mr Rowland, of Burnside road, drove to town on Tuesday fift's large, fat porkers, raised on his farm. Ther were bought by Heywood. The man who thinks that hoge cannot thrive on this Island should go and look at these porcine specimens. Before the lapse of another twelvementh the colony will produce all the stock required for home consumption,

LEGISLATIVE COUNCIL. - Yesterday Dr. Helmoken gave notice that he would introduce the Petition of J. C. Nicholson at the next meeting of the Council. Mr. Robson moved an address to the Governor recommending that the article of Boiler Tubes having evidently been inadvertently omitted from the Free List, may be included therein. and that the proper officer be instructed to that effect. Dr. Helmeken desired to tack on iron, gas and water pipes, but was overruled. The resolution was lost. The Preemption Bill was introduced for second reading. The object of the Bill is to enable the Government to force the payment for lands specially surveyed by request of the grantee. By the existing law provision is made for the purchase of land by pre-emptors, but none for the payment. Numbers of cases had occurred involving a considerable sum of money, in which the holders of such lands had contented themselves with the survey, all they required, and the Government had no power to enforce payment. The land cannot be jumped after it is surveyed. The Bill was read a second time and then passed through Committee; the third reading was fixed for to-morrow. The Road Bill then came under consideration in Committee and elicited some discussion; the formation of a Road district depends on two thirds of the residents petitioning for it; Dr. Davie would ather the law was obligatory, but this was objected to as involving a principle. He subsequently proposed to impose a tax of 25 cents per acre on unoccupied lands that were fit for stock raising or cultivation. He stated that from careful investigation he had discovered that there were 15,000 acres of land near Victoria that would produce sufficint to the Colony to save all the outlay in foreign productions. The suggestion was opposed as impracticable, The bill was ultimately reported complete, third reading for Monday next. Following in order, the Companies Bi I was read a second time, and some progress made in committee, which ultimately rose, reported progress and asked leave to eit again. The Volunteer Bill was read a second time and reported complete by the committee. The St. Andrew's Church Incorporation Bill passed through committeecomplete; third reading fixed for Monday next. The Mineral Lands Bill was reported complete by the committee; third reading on Monday. Mr. Trotch gave notice that he would, at the next sitting of the Council, introduce a bill to supply Victoria with water. The Attorney General gave notice of a bill re-

pleasure. COME TO GRIEF-About a year and a helf ago a brig called the "Rona," laden with tropical fruit, arrived at this port from Tahiti. She was commanded by a Captain Haves-an enormously stout man-who had fled from California and Australia to avoid answering to the law for the commission of acts of at least a questionable characteramong others for stealing the bark Ellenita, from San Francisco, in 1859. It was understood that Hares' real following was that of kidsapping ratives at the Tabiti Islands and conveying them to Australia, where they were apprenticed for long terms to stockraisers After leaving Victoria, the doughty captain-who appeared to have piles of gold -cruised among the Tahitian Islands in pursuit of his bifamous calling, and upon an unlucky day fell out with his first mate and challenger him to fight a duel. The mate accepted he challenge, the brig was brought to an amhor, a boat was lowered and the two combatants, accompanied by the crew, went ashere. The weapons used were pistols, and Hares was shot through the body and killed at the first fire. Upon his fall the natives, who had stood aloof and watched the proceedings, rushed forward and cut off Hares' head, and drove the mate and the crew back to their vessel. Hayes was both feered and hated by the Tahitians. These pets are gathered from a private letter received by a resident of this city.

lating to religious and charitable institu-

tions. The Council then adjourned during

FROM THE NORTHWEST COAST .- The Otter arrived from the North early on Friday morning ; she reached S tka on the 3d Feb. Two white men who were on a trading expedition in an open boat were killed near Sitka by the Kaike Indians to revenge the death of the Schools in the mass.

who can neither read or write?" If the Government attempted to take a single stone from the Park, they could be proverted by an injunction. If this right escaped through the people's fingers, the next thing yould be that the whole affair would be placed under the Lands and Works Department, and we should be placed under the feet of despots.

[Haar.]

Some or the first and the santry at Sitka. The United States the santry at Sitka. The United States at stamer Saginaw, with General Davis and staff, was to leave for Kaike on the 15th. No other news. The Revonue Cutter Reliance was silf at Siku. The Otter left on the Feb.; touched at Stikine and Tongass, and arrived at Fort Simps no on the 14th; some of their friends who had been shot by saw a schooner, supposed to be the Favorite abreast of Point Harrington; left Fort Simpson on the 19th, called at Metlakathla, Bell's Beil's, Cools, Fort Rupert, Sasquash, Comox and Namimo. The schooner Margaret was off Saaquash on the 22d. The steamer Geo. S. Wright was coaling at Nanaimo on Thursday.

> AMATEUR NAVAL CLUB PERFORMANCE. The entertainment fixed for this evening promises to be one of the merriest that has yet been placed on our boards. Among the gentlemen who have consented to appear are Mesers. Brodie, Dickens, Login, Stock, Wright, Jauncey, Ashington, Berkeley, Pirri, and White, nearly all of whom have won merited applause at previous entertainments The pieces to be presented are "A Suit of Tweed," Bombastes Furioso," and "The Steeple Chase, or, in the Pigskin;" and apart from the assurance that the performance will be the most fun-provoking for which we are indebted to the Naval Amavoted to charitable purposes ought to be suf-ficient to crowd the house,

GOLDSTREAM-AN ACCIDENT .- A party of gentlemen, comprising some naval officers and a civilian, were on their return from a prospecting trip to Goldstream on Thursday evening, when the back seat of an open buggy in which they were seated tipped over and landed two of the parties in the road. The occupants of the front seat proceeded about 500 yards before they were aware an accident had occurred. The gentlemen escaped with a few slight bruises. Previous to the accident the party prospected vigorously in the banks of Goldstream and secured a fine prospect, which was lost in the tumble. Some fine specimens of quartz from the old Parmeter claim-which some of our citizens have reason to remember with sor' row-were brought in, and will be sent to New Westminster for assay.

FIGHT-John, whose patronymic is Costello, but whose pet-name is "Billy the Bug," yesterday observed a man in a state of intoxication in the act of being hurried into a boat at the foot of Johnson street. Believing the man to be shanghaed, he interfered to rescue him from his custodians. when a fight ensued, which ended in Billy and one of the mon being locked up. Both found bail, and to-day they will be arraigned for trial.

STEAMSHIP MOVEMENTS .-- The Active will sail at 4 this morning for all the ports on Puget Sound. She will proceed thence to Nanaimo for coal and return here on Thursday to meet the steamer Gussie Telfair, which will sail from San Francisco for Victoria direct on Monday. The officers of the Active will then be exchanged into the Telfair for Portland, and the Active will ren down direct to San Francisco. Such is the programme as at present decided on.

YESTERDAY was one of the finest days of the season. The air was soft and balmy as mistake. in June, and the sun shone out so brightly and warmly that woollen clothing became uncomfortable. The recent frosts have inflicted no damage upon vegatation, if we except a few flowers 'nipped i' the bud.' Peas. asparagus and budding fruit trees continue to put forth their shoots and tendrils, and the indications of an early spring are quite favorable.

THE mail steamer Active, Captain F. C. Shoil, arrived at 31/2 o'clock yesterday afternoon from Portland, bringing 43 passengers, a full freight of live stock and merchandise and a small mail and express. The Active sailed from Portland on the afternoon Thursday. Captain Sholl reports a pleasant run up. Purser Goodhue has placed us under obligations for the customary favors.

TO BE WITHDRAWN .- We learn that the steamship Active is to be withdrawn from the Portland and Victoria trade, and that the steamship Gussis Telfair will shortly arrive to take her place.

DEATH AT THE HOSPITAL DESCRIPTION OF GREAT AT THE HOSPITAL DESCRIPTION OF GREAT AT THE HOSPITAL DESCRIPTION OF THE PROPERTY OF Royal Hospital yesterday of dysentery. He went to the hospital suffering from small pox, which seems to have terminated in the malady that carried him off.

CONFIRMATION-The son of Mr Samuel Harris will be confirmed at the Jewish Synagogue at ten o'clock this morning. Persons who have never witnessed a ceremony of the kind will be interested by attending.

MECHANIC'S LITERARY INTTITUTE. - Another exhibition of the Oxyhydrogen Lantern will take place on Tuesday pext. Views of the Alps, Mont Blanc, Paris, St. Petersburg, etc., will be introduced, and described by Rev. Mr. Jenns.

Fell's Coffee has become the favorite Colonial beverage, and isto be found on every breakfast table from Victoria to the foot of the Rocky Mountains.

Prorogation.—The Council, it is expects ed, will be prorogued on Saturday next.

Legislative Council.

Thursday, Feb. 25th. 1869. Present—Hons. Ball, Bushby, Crease, Holbrook, Davie, Robson, Helmcken, Humphreys, Carrall, Wood, Hamiey, O'Reilly, Alston, Ring, Drake, Trutch, Walkem, Pemberton, Sanders, Young (pre-Hon. Robson on behalf of the Select Com

mi tee on the Supreme Courts Bil, laid the draft of an address to Her Majesty before the Council. Of course it was open to such alteration as the Council might think fit.

the character of the document, he expected much more from a Committee so capable as that in which it had been framed.

It was then agreed to refer the address to a Committee of the Whole for revision.

Hon. Holbrook moved a resolution re commending the Government to make provision for the establishment of a Labor Fxchange with an office at New Westminster and another at Victoria. Such an exchange had been established at San Francisco, where it had done a great deal of good, and he believed if such an establishment was he believed if such an establishment was created here it would be of great value to the Colony, as it would help those arriving here to find employment which would be tre best thing to increase our population. If it was under Government supervision it would very soon be self-supporting. Parties arriving would be informed at such an institution not only of employment, but of the land wacant and where; he would be t ld that, that information might be obtained at the Lands and Works Office, but he conceived that if such information could be obtained at an institution, such as he proposed, it would be more readily sought after. There would be more retarty sought after. There would be some expenses attribute to the carrying on of such an office at first, but it would all interest pay for itself. The fees charged at San Francisco were \$5 or \$2.50 on application, and \$2.50 when the situation was found.

tion was found.

Hon, Robson seconded the resolution

Lind to support any measure that and was glad to support any measure that would assist in settling up the land.

Hon. Trutch-The difficulty unfortunately was, not to find employment, but to find labor; he found it most difficult to procure it even at enormous wages. If there was surplus labor such an office would be well enough, but the reverse was the case.

Hon Alston thought the arguments offered by the hon. Chief Commissioner in opposing the res lution, were the best arguments in its favor; it would prevent men walking about the streets if they could go to some place and learn where employment could be ob-

Hon. Trutch did not believe there was one man in the city who desired employ-ment that could not obtain it within an hour, Hor. Drake—Such an establishment Hon. Drake—Such an establishment would interfere with private enterprise; in-

stead of baving applicants for labor people and to hunt all over the city for labor. Hon. Wood thought such an institution good in bringing employer and employed together with more facility; if it only extend-

ed to Chinamen it would do good.

Hon. Holbrook.—Such an establishment
would be in communication with San Fran-

cisco, and surplus labor, there would find its way up here in consequence of such infor-mation being offered.

The resolution was carried.

VICTORIA WATER BILL Hon. Robson introduced the Victoria City Water Works Bill.

Hon Drake seconded.

Leave granted and the bill read a first time, second reading ordered for Wednesday

Hop. Heimsken moved that a sum of noncy [*ay \$250] be granted to any one who incovers the best line of road to Cowichan. He approached the subject in much trepida-tion as he expected a broad-lie from the hon, gentleman at the head of the table, os the subject had been under consideration many times within the walls, but no practical line of road had been discovered so far. There was a line better that any on the maps, which starts near Peati's house and goes thence by Sooke for a short distance. It was a practical to road throughout and would be a great saving to the Gov-eroment. The trail already laid out was a

Hop. Davie had listened carnestly to the mon, Davie and listened carnestry to the remarks of the member from Victoria City, and while the importance of a road from Victoria to Cown han could not be too strongly pressed on the con-invention of the Government, he trusted no money would be voted towards that object until the required at Cawchan, from the settlement to the road at Cowichan, from the settlement to the steamboat landing, and also the roads from Metchosin and Saanich to Victoria be made, so as to enable the settlers in those districts to bring their produce to market.

Hoo. Trutch-If such a reward was to be paid for the best line of roads yet discovered it would certainly by claimed by a gentle-man in the Land and Works Olice. A section bad been taken of a line blazed by Mr Pearse, and subsequently traced by Mr. Patterson, much better than that followed by Patterson, much better than that followed by the present trail. He conceived that a line by Peatt's house would carry them too much to the westward, and in returning to the egistward, he did not see how they could awaid a very high mountain which must be crossed in going in that direction. Plenty of people pretended they know be ter routes than those laid out by the Government, no matter how carefully selected they might be. He did not think the roward would be any inducement to parties to discover such a sente. When the Government was in a position to make a road the line would be carefully surveyed, and the best route, wherever that might be, chosen.

The resolution was withdrawn.

THE STIPENDIARY MAGISTRATES BILL

was read a third time and passed. THE PARTNERSHIP BILL

was read a third time and passed. THE CIVIL CASES BILL

read a third time and passed. THE SUPREME COURTS BILL

was then brought up for third reading. Hon. Drake moved that the bill be read a third time this day six months.

Hon, Ring seconded the amendment; the bill was delective, and it was necessary that how members should be able to give a good account of their stewardship to their constit-

uents, and show them that their interests were protected. That honorable body was the mouthpiece of the Colony. Hon. Helmeken supported the amendment

—and in doing so he was perfectly well aware that the bil would be passed never-theless; the committee had no right to alter the bill, as the Orders of the House was distinet as to the bill being intended to eract such and such things, while the committee had no power to alter; it was beyond the power of the committee to awarve from the hat of the House. His object to opposing the third reading was simply to have the votes of the House recorded, in order that it might be seen who had voted for the bill. It only perpetuated the existing anomalous state of affairs, and the Government members must take the responsibility. 'i-ved they were actuated by honest motives, and supposed they were doing the best for the country; it should therefore rest with the Government to see that the best was done, and be hoped they would not meet here this time twelve months and find the same diffi-

ullies unchanged.

Hon Carrall wished to state one reason why he opposed the third rending. He had the honor to be one of the Committee who were appointed to draw up a report, which was brought into that House, and it was not consistent with the expectations of the country that the bill should be tiruit upon them notens votens, and he should resent such treatment. The suggestions made by the committee were readered necessary by the anomalous state of the Judiciary, for the common good. He believed with the senior member for Victoria district that the Goveroment members were actuated by a desired to do the best they could for the country.

Hon Holbrook opposed the amendmen He believed the opposition was get up to centralise all the law courts at Victoria and force people to come down from the main land and probably wait six 'months for the settlement of their c see. He was surprised at the members for the mainland supporting the amendment. He should support the Government in their efforts to serve all the Government in their efforts to serve all the people; and he believed it was the wish of the people of the mainland that their representatives should do the same. I Han Trutch—The bill was not, as hon.

Hon Trutch.—The bill was not, as hon members had stated, the bill the colony required, and all the gentlemen at his end of the table were quits aware of that; but the passing of this bill, he thought, would be the most expedient and practicable way of arriving at what was desired. As a matter of expediency, he had always advised the passing of this bill, and had that been done last your it wasvery probable that the present difficulies would not have existed. experiment tried last year had signally failed. The Government in a weak moment had given weyter the desires of the Honse, and hey were all aware of the result. He firmly be liewed that this bill would have the effect of removing all existing causes of complaint before the men is assion.

Hon Robson—The Government should not

speak in exigmas. They were told that if they believed in Governmentall would be serene; such a statement to have any weight should be backed up by some information. They were bound to look at the matter from their—the popular members—point of view and hence con I not accept that assurance le conceived that their section of the He conceived that their section of the House had not been firly or properly used. The Committe chad been tripped up on some so-collect question of order; the sentiments of the House could be judged from the fact that the vetes stood 9 to 10, and the one vote in favor of the Government was obtained by sending a man on horseback for the Stipendiary Magistrate. The Government that the vetes defined in moving in such a stool of the sending the sending that it moving in such a should be very delicate in moving in such a matter. He was aware of the position of the Government to lieving with us and acting against us; but unless some Government member could show some reason for acting other wise they must believe that they were only acting homestly in doing their duty by voting against the measure, and if defeated, by placing are speciful protest on the books

Hon. Clease would remind hon mombers that there was no advantage taken or discourted status, the second reading of the Bill was quite in order, as it was also neces-Bill was quite in order, us it was also necessary that thereport should not be considered with the Bill, because it was incomplete until the address was brought up. They might take issue, if they thought proper, with regard to the disobedience of the Committee in half on to the desires of the House, by protest. The suggestion of the honoments heid, would only complicate maters. The Bill was the shortest way out of our present difficulties.

Hon. Young—The hop, member for New

Hon. Young—The hon, member for New Wes minister had made such an attack on the Government that he felt bound, as the principal mem her of the Government in this House, to rise to defend the position. was happy, however, to think that the hon member, at ter his attack, did take it all back by saying that he did not blame the Government, and that he appreciated their position. He (hon. Young) had listened to all the argument against the Bul, and they were just a repetition of what we had lest year. Last year what did the Government do? Why they concelled their line of policy to hon, gentlemen on the other side of the House and all those culls which have been so cloquently presented to us as existing at the quently presented to us as existing at the present day, are not the result of the policy of the Government, but of those gendemen who are now again opposed to the policy of the Government. The Government are acting in the public interests, and with the cannest desire of bringing about at the cannest desire of bringing about at the callest moment what is really wanted by the Colony in regard to the Courts of Justice The hong on lemen who are now opposing the Government have, he firmly believed, already prolonged the state of things which they so londly denounce, and he warned them that if by any act of theirs, if by any brotest they may make, they impede the operation of this Bill then will the responsipility of the continuance of existing evils rest with them, and not with the Govern men t. Hon. Robson was not aware of the feeling

of the government on the subject, or that their sympathles were with the people, though apparently aeding against them; but he thought the Government had not acted right by the House; he blamed the Government in withholding light upon the subject. He did not, however, mean any disrespect to the Government.
The Floure theu divided on the amendment.

was lost. On a subsequent divisio the trird reading was carried and the Bill

The number and members voting were The number and members voting were the same in each case; but on the first division, by some misunderstanding the vote of hon. Davie was recorded against the amendance testhough the hon member explained the nature of his vote. The names were as follows:—In favor of passing the Bill: Hons. Crease, Hamley, Bushby, Pemberton, Hobrook, Trutch, Sanders, Ball. O'Reilly, Akton. Against the passing of the Bill: Hons. Ring, Wood, Davie, Humphreys, Gamall, Helmeken, Drake, Robson, Walken.

DRAWBACKS BILL.

Hon, Drakes moved that the Drawbacks Bil be re-committed in order that certain defects might be corrected.

Hon. Robson seconded the re-committal

as, if by doing so some defects can be re-moved that might render the Bill inoperative, no factions opposition should be offered. It was not a becoming act on the part of the Government insembers to destroy the Bill, as it was so much required for the benefit of Crease objected to any such course

being taken with the B.H and he based his apposition on the evidence taken before the Committee. He claimed a right to express his opinion and to object to be thought was improper without being taxed with factions opposition. I twas highly improper of any opposition. It was highly improper of an mem ter to tax another with factious opposition. tion who speaks from conviction for the purpose of photecting our own traders.

The bill was then recommitted and the

first clause struck out, so that the size of vessels allowed to take goods out of bond will be I mited in accordance with the Custorns Consoldation Act to fifty tons. After some other ime uracies had been corrected some other race process had been corrected the bill was reported complete. Standing orders being suspended the bill was read a third time and passed.

The Governous massage No. 17 informed

the Council that His Excellency had asserted, in Her Majesty's name, to the Vancouner Island Reconveyance Ordinance, the Volunteer Bill and Bylaw Bill were post-

ST. AND DREW'S CHURCH BILL.

The clauses in this bill were all passed excepts and 9. A desultory debate took place, but having no public interest. The committee therross, reported progress and asked leave to sit again.

The Municipal amendment Ordinance was then taken up in Committee of the Whole and some progress made, whon hon. Robson moved an adjoinment during pleasure. On resuming, some further progress was made, among other things it was decided on motion among other things it was decided on motion among other things it was decided on motion should be excluded from the city limits. A Select Committee was appointed to arrange the made of procedure in lature, in relation

the modes of procedure in future, in relation to private bills. The following gentlemen were narmed—flons. Holbrook, Helmoken, Alston, Wood, Huvelock.

The Council then adjourned until 11 a.m., on Friday.

HOLLOWAY'S OINTMENT AND PILLS—A certain remedy for diseases of the skin. ringworm, scurvy, serofula, or king's evil, sore heads, und the most invoterate skin diseases to which the human race is subject, cannot be treated with a more safe and speedy remedy than Holloway's Ointment and Pills, which act so peculiarly on the constitution, and so purify the blood that those diseases are cradicated from the system, and a lasting oure is obtained. They are efficacious in the cure of tumours, burns, seales, glandular swellings, utecrous wounds, rheumatism, contracted and still joints. These medicines operate mildly and surely. The cure effected by them is not temporary or apparent only but complete and peremporary or apparent only but complete and per-nament.

A LADY OF HIGH RANK, Wife of one of the leading statesmen of England, says: "I have duly received the case of MURRAY & LANMAN'S FLORIDA WATER, which MURRAY & LANMAN'S FLORIDA WATER, which you were kind enough to send me. I have tested its merits, and find it a most delightful perfume, more delicate and flowerlike in its aroma than any other toilet preparation I have before used."

Ref* Purchasers should be particular to ask for the Florida Water prepared by Lanman & Kemp, New York, who are the sole proprietors of the genuine perfume.

EXTRAORDINARY CURE OF A COUGH

The following letter has been received from LLIAM BOARDS, Esq., an extensive agricultur and land agent, residing at Edmonton, Mid

ist and land agent, residing at Edmonton, Nidallean "Nightlugate Hait, bounded."
"Dear Sir,—I have recently suffered much from
a most violent cough, proceedin, from a tickling
in my chest which no remedy, out of many I resorted to, could allay. My head was constantly
aching, and my whole frame entirely, shaken
Having seen the good effects of your Balsam of
Aniseed in several members of my family, I pur
chased a small bottle, and, when going to bed at
night, took a teaspoonful in two tablespoonfuls
of water, just warm. The effect was immediate;
it arrested the tickling in my chest, I slept well
and arose perfectly restored in the morning, with
the exception of debility, arising from fatigue by
incessant coughing for some days previous. My
cough entirely left me, and has never returned
Having since heard of a lady in the neighborhood
who for a long time had laboured under a most
distressing cough, and who had resorted to every who for a long time had laboured under a most distressing cough, and who had resorted to every remedy within her knowledge, I sent the remainder of the bottle to her; and that long-standing, obstinate, and (as she thought) incurable cough, was perfectly cured. You are at perfect liberty to make what use you may please of this communication, as the contents are strictly true. I shall take every opportunity of recommending your inestimable medicine, feeling as I do fully assured of its efficacy.

your inestimatic measure, assured of its efficacy.
"I am, dear Sir, yours very truly,
"WM. BOARDS.

Ayer's CATHART

PILLS.

Dr. AYKR: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerons sore upon her hands and cet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her bair. After our child was cured, she also tried your Pills, and they have cured her.

Dysentery, Diarrhea, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Fills have had a long trial in my practice, and I hold them in exteem as one of the best sperious I have veer found. Their alterative effect upon the liver makes them an excellent remedy, when given is amall doses for billous dysentery and diarrhess. Their sugar-coating makes them very acceptable and convenient for the use of women and shildren.

Faralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Fills for the ene of costiceness. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it, for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe costiceness to originate in the liver, but your Fills affect that organ and cure the disease.

Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the natural secretion while wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my putients.
